## Background

---

In 2014, the Village of Marwayne carried out a 1.9-million-dollar construction project on Centre Street. The goal of the project was to upgrade the underground water and wastewater infrastructure. Through the installation of a much needed storm sewer system and by replacing old sewer mains and water/wastewater laterals, Centre Street has been completely overhauled to ensure the continued viability of our community for years to come.

Above ground, the Village added widened sidewalks for pedestrian traffic, green boulevards and new light fixtures. The revitalization of the Village of Marwayne's downtown core was an essential part of our sustainability plan and served as a means to attract and retain new business to the area for years to come.

## Vision

---

With the new and improved downtown core, the Village of Marwayne looks forward to welcoming you and your business to our community. With multiple commercial lots available for sale, we encourage all interested parties to get in touch with our administrative staff who will assist you and your business in becoming a part of our ever-growing streetscape.

Our open and undeveloped commercial parcels of land are the perfect place for your small or large scale project. Please contact us with your proposal in so that we can easily guide you through the development process.
